

# BLANK CANVAS

## FULL-9 DESIGN CONTEST

Winning graphic to be worn by

# DANNY HART

Danny Hart and Bell Helmets want you to design the graphics for the helmet Danny is going to race at the Vallnord World Championships. The Bell Full-9 is the perfect blank canvas for you to show-off your design and color skills. If you create the winning design, you'll not only see it on the head of one of the fastest downhillers on the planet, but also on your own ugly mug as you'll be getting one as well. Chris Wood at Airtrix will be personally painting each Full-9 to ensure that your design gets the professional execution it deserves.

## CONTEST DETAILS

### How to enter

1. Download the vector graphic template for a Bell Full-9 helmet.
2. Create your own design on the Full-9 template using your own graphics along with the Bell and Fenwick's logos.
3. Upload a digital version of your artwork to the "Bell Blank Canvas" photo category on Pinkbike.

### Deadline

Submission deadline is July 10, 2015.

The Top 5 finalists and winner will be announced July 17, 2015.

### Selection process

The Top 5 People's Choice finalists will be voted on by the general public through the [Pinkbike website](#).

These 5 artists will get a new Full-9 — size and color of their choice from the current line. The final winner will be selected by Pinkbike, Bell Helmets' artists, and Danny Hart.

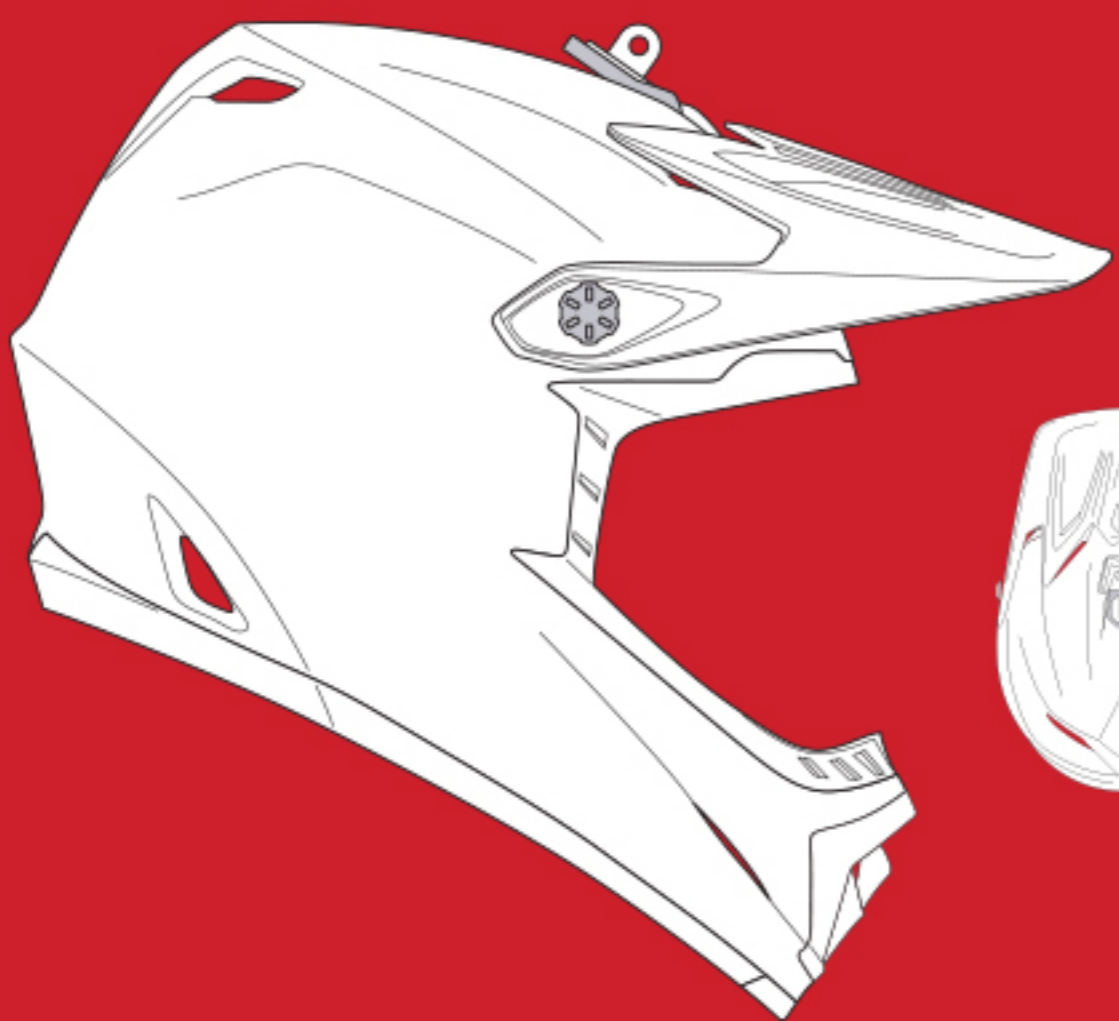

### Rules & regs

- The subject matter can be based on anything within the bounds of good taste and humor.
- No profanity, obscene imagery, or other designs that may be deemed not fit for the general public.
- You may submit as many entries as you like, but they should all be awesome!

### Publication rights

Bell Helmets reserves the right to reproduce any design submissions and pertinent content in future Bell helmets. In other words, we reserve the right to show off the winning design as often as possible.

This means that Bell Helmets will be using the winning submission for the 2 helmets produced (one for Danny, and one for the winner), as well as the photography of the helmet that will be used to promote the winning graphic. Bell Helmets WILL NOT use it for an inline graphic without working with the artist first.

## AND THE WINNER GETS ...

*So what do you get for all of your blood, sweat, and creative frustration?*

The winner of the Bell Helmets Blank Canvas Design Contest will see their winning design raced by Danny Hart at the Vallnord World Championships, and get their own custom painted Full-9 from Airtrix.

The Top 5 finalists each win a Bell Full-9!
